Goal

To upgrade the life safety of occupants and to protect the heritage hanger

Solution

14 x Eura louvred smoke vents and static smoke baffle.

Design Considerations

Colour matching, easily retrofit, light weight and slimline. Due to the nature of the contents in the warehouse the smoke vents required a guarantee of water tightness, with the system being tested to exceptional performance levels.

*Note: Each project is unique and usually requires the involvement of a Fire Safety Engineer.
Please contact us to discuss the suitability of this solution for your project.*
