Problem

To utilise the highest quality product with a low over-all cost to meet public school budgets for the provision of smoke hazard management in the school's multi-purpose hall.

Solution

Eura Style ventilators were selected as they are unique in the size availability which allowed a higher quality product to be installed for less cost. The size of the curtains reduced the number that needed to be installed.

Client

Allstaff Air-conditioning

Deemed To Satisfy Solution

Smoke Control were able to provide design, layout operation and product selection advice in addition to supply, installation and certification in accordance with the BCA Clause E2.3.

*Note: Each project is unique and usually requires the involvement of a Fire Safety Engineer.
Please contact us to discuss the suitability of this solution for your project.*
