

SmokeGlaze

- TESTED to EN12101 as a smoke baffle
- 600°C for 30 minutes
- Cost effective
- Quantifiable performance
- RELIABLE
- Can be installed as a floor to ceiling screen or suspended system
- Proprietary framing and suspension system
- Ideal for use in lieu of sprinklers on toughened glass

SmokeGlaze is the ultimate in glazed smoke baffling and containment. The system performance is quantifiable and reliable. SmokeGlaze can be installed as a full height screen or suspended so that the bottom of the glass sits a specified distance above the finished floor.

When tested and proven systems are required, SmokeGlaze is the solution.
