project overview

smoke containment screens • smoke curtains • fire curtains • horizontal fire curtains • smoke & heat release vents • natural ventilation • fire resistant glazing • horizontal glazing • glazed smoke doors • glazed fire doors • metal fire shutters & other specialty systems

34 CARLTON ST, KATOOMBA
KATOOMBA, NSW
Goal
Provide fire protection to bushfire prone area with a BAL-FZ rating. A -/30/- solution is required for building in bushfire prone areas which is tested to comply with AS3959.

Solution
Smoke Control supplied and installed three Windowshield fire shutter protection systems in order to protect window openings. This solution complies with Australian bushfire standard AS3959 and provides adequate protection to openings.

Design Considerations
Smoke Control has taken into consideration the size of openings and have custom designed the Windowshield system to be retrofit over desired openings.

Note: Each project is unique and usually requires the involvement of a Fire Safety Engineer. Please contact us to discuss the suitability of this solution for your project.
