Project Overview

Problem
The building contained windows that were within 3m of a boundary. According to the BCA Clause C3.4, any opening within 3m of property boundaries requires fire protection.

Solution
The solution was to install Windowshield Fire Shutters in accordance with BCA Clause C3.4. Windowshield Fire Shutters provide a simple and reliable system that is gravity fail safe.

Design Considerations
The system shall be slimline and lightweight. Windowshield Fire Shutter’s compact design allows this system to combat such aesthetic restrictions.

Client
Tom Zeaiter Constructions
