**Problem**
Conventional Proscenium curtain too expensive for fire safety upgrade of existing Drama Theatre.

**Solution**
One single and continuous 18 metre wide Supercoil smoke curtain was provided to prevent smoke spread from or to either of the seating or stage areas.

**Design Considerations**
Supercoil is the only smoke curtain system that can be provided locally without the need for unnecessary curtain overlaps and multiple drive units.

**Client**
Sydney Opera House

**Fire Safety Engineer**
Arup Fire

*Note: Each project is unique and usually requires the involvement of a Fire Safety Engineer. Please contact us to discuss the suitability of this solution for your project.*
